<b>Office Action Summary</b>	<b>Application No.</b> 10/534,953	<b>Applicant(s)</b> MILLER, WILLIAM L	
	<b>Examiner</b> Maria B. Marvich, PhD	<b>Art Unit</b> 1633	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

The previous election has been vacated and replaced in its entirety with the following restriction.

Claims 1-70 are pending in this application and subject to the following restriction.

#### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-30 and 67-70, drawn to an isolated nucleic acid active as an FSH $\beta$  locus control region wherein the locus control region is SEQ ID NO:1 or a sequence 80% related.

Group II, claims 31-40, drawn to a transgenic non-human animal comprising the lcr of Group I and methods of making the transgenic.

Group III, claims 41-47, drawn to a recombinant nucleic acid comprising FSH $\beta$  operatively associated with a response element.

Group IV, claims 48-66, drawn to a transgenic non-human animal comprising the construct of Group II and methods of making the transgenic and a method of using the transgenic.

The inventions listed as Group I-IV do not relate to a single general inventive concept because they lack the same or corresponding technical feature. The invention listed as Group I have a technical feature are linked by the technical feature of an FSH $\beta$  locus control region wherein the locus control region is SEQ ID NO:1 or a sequence 80% related. Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2,

Art Unit: 1633

they lack the same or corresponding special technical features. Specifically, while the technical feature of Group I is a sequence of SEQ ID NO:1, Group III does not share this technical feature. Groups I and II lack unity as unity exists if there is evidence which would lead one to conclude that the characteristic of the final product (the transgenic animal) which is the inventive feature of Group II is due to the intermediate (the DNA sequence). As no such evidence exists then there is no unity on the basis of an intermediate-final product relationship. Similarly, Groups III and IV lack unity as unity exists if there is evidence, which would lead one to conclude that the characteristic of the final product (the transgenic animal), which is the inventive feature of Group II, is due to the intermediate (the DNA sequence).

Applicant is reminded that upon cancellation of claims to a non-elected inventions, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
